Hard-Skills C#, Asp .net, Java, React, Docker, OpenShift, Version Control (Git) , SQL

Soft-Skills Leadership, Adaptability, Professionalism, Critical Thinking, Problem Solving, Patience, Empathy

PROJECTS

Chat Bot

- A intelligent chatbot application built using Node.js, Express.js, and vanilla JavaScript. This chatbot is designed to respond to user queries based on pre-defined data stored in JSON files, and it also supports dark/light mode

Review System

- The Product Review System is a web application that enables users to view and manage product reviews efficiently. Reviews are stored in a JSON file on the backend and dynamically fetched using JavaScript for display on the frontend. The system utilizes Node.js for the backend and employs HTML, CSS, and JavaScript for the user interface, ensuring a seamless and responsive user experience.

ACHIEVEMENTS

- Earned badges for completing 50-day and 100-day coding challenges on LeetCode.
- Recognized for leadership excellence and promoted as Discipline Head of the Bits 'N' Bytes Club at Chitkara University.
- Participated in The Bharat Scouts and Guides camping.
- Participated in Girls Band Group at state level held in Ghaziabad.

CERTIFICATIONS

- Introduction to Generative AI Learning Path (Google Cloud).
- Elevating Cyber Security Talent (Deakin University)

Industrial Project

- Working on project SPOT in internship at Orange Business company where I'm handling backend part of the project . The project that facilitates the configuration and Installation of Orange Policies with Orange Enterprise Operating System on new PCs that are bought by Orange from OEMs (Original Equipment Manufacturer) like HP, Dell etc.
